Met	109
Not available, new school	3
Not Met	168

*** Opportunity to Review School-Level Data/Appeals (based on the Title I regulations, section 200.31):**

Before identifying a school for school improvement, corrective action or restructuring, the Superintendent will provide the school with an opportunity to review the school-level data on which the proposed identification is based. All schools will be provided 10 calendar days after the official notification of AYP results to submit an appeal.

Step 1: If the principal in consultation with the School/Community-Based Management (SCBM) council believes that the proposed identification is an error for computational or statistical or other substantive reasons, the principal must substantiate and document the perceived errors.

Step 2: The principal must submit the supporting evidence to the Superintendent no later than 10 calendar days after the initial notification of AYP results is distributed to the schools.

Step 3: The Superintendent considers the evidence submitted by the principal before making a final determination.

Step 4: The Superintendent will make public a final determination of the status of the school with respect to identification not later than 30 calendar days after the school is provided with the opportunity to review the data. In other words, a final determination of the status of a school will be made no later than 40 calendar days after the initial notification of AYP results.

All decisions on identification after the appeal process has been completed will be final.
