### Focus On Standards

This School Status and Improvement Report has been prepared as part of the Department's education accountability system to provide regular, understandable accounts of our schools' performance and progress, as required by §302A-1004, Hawai'i Revised Statutes.

This report describes the school and its setting; provides information about the school's administrators, teachers, students and facilities; summarizes progress made based on the school's improvement plan, reports student achievement results along with other vital signs.

### School Description

The Hawai'i Center for the Deaf and the Blind (HCDB) is at the foot of Diamond Head in Kapahulu, and was established in 1914. The Center is composed of a school, residential, and diagnostic/resource component.

The school component serves the State's deaf and deaf-blind students from pre-school through high school. The school provides an American Sign Language (ASL) immersion, instructional program with the use of specialized teaching methodologies for deaf students. All faculty and staff are required to use ASL with the deaf students. HCDB students are able to participate with neighboring high schools for sports. Transition services are provided to students as they prepare for post-secondary education and/or employment.

The residential (dormitory) program enables neighbor island students to access the school program on Oahu. Residential students are flown home every weekend to maintain close family ties. The cost of the home-going program, including airfare, ground transportation and adult supervision, is paid for by HCDB.

The diagnostic/resource component provides evaluations for students statewide who are deaf, blind, hard-of-hearing, deaf-blind or partially-sighted. These evaluations are completed by trained professionals in audiology, speech/language pathology, visual and/or hearing impairments. When needed, evaluations are conducted in ASL. Braille and large-type materials are disseminated to students who are blind or partially-sighted. Open-captioned, educational media for deaf and hard-of-hearing students is available for free-loan statewide. Technical assistance and consultation for teachers, schools, and families of children in the target groups is also provided upon request.

## School Improvement

### Summary of Progress

The Hawaii Center for the Deaf and the Blind (HCDB) developed and implemented a Strategic Plan beginning in school year 2000-2001. It covers five years, and will be completed during the 2004-2005 school year. The Strategic Plan has ten strategic areas with goals and completion dates.

With the assistance of the HCDB Advisory Council, staff and faculty, HCDB has begun to review and revise its Strategic Plan. The Plan will follow the Department of Education Strategic Plan in terms of format and goals. The intention is that the new plan will be more focused and aligned to the Department's vision, mission and goals.

Standards are implemented in the framework of individualized needs determined by each student's Individualized Education Program (IEP). Each student's IEP aligns with HCPS II standards and benchmarks. Progress on those standards and benchmarks are reported to parents on at least a quarterly basis, and reviewed and revised annually.
